

The Ohio Department of Natural Resources Office of Coastal Management has developed the "Ohio Coastal Atlas" Second Edition to map and provide geographically-referenced information about the coast of Lake Erie and highlight the many tools and resources for the Lake Erie Watershed. The Atlas is available online at [www.ohiodnr.com/coastal/gis](http://www.ohiodnr.com/coastal/gis). Contact ODNR at [coastal@dnr.state.oh.us](mailto:coastal@dnr.state.oh.us) to inquire about a DVD. Be sure to check the "Habitat" section that mentions the Dike 14 Nature Preserve.
