Special thanks to the Dike 14 Environmental Education Collaborative members for their extensive work in document preparation, editing the text, preparing graphics and other support. Thanks to the Cuyahoga County Planning Commission for maps and Heidi Adams Cool for editing.

THE 1525 FOUNDATION

This project is supported by grants from The 1525 Foundation, The Cleveland Museum of Natural History, The Cuyahoga Soil and Water Conservation District and the Ohio Sea Grant College Program.

You are key to the future of the Dike 14 Nature Preserve!

Contact the Dike 14 Environmental Education Collaborative to learn more about environmental education resources and to help promote environmental stewardship of the Dike 14 Nature Preserve.

The Dike 14 Environmental Education Collaborative develops environmental education resources for children, families and local and regional schools focusing on water quality, land use, dike information, native and invasive species and the natural world.

For copies of the Field Guide, for additional information about the Dike 14 Nature Preserve, for information about environmental education opportunities, or to learn how you can get involved to help preserve and promote the Dike 14 Nature Preserve please contact any member of the Dike 14 Environmental Education Collaborative listed below.
